

**The PocketPuddle™**  
**SignPuddle USB Flash Drive**  
 Carry SignPuddle in your pocket!

...a portable server for  
 your personal computer...

Exclusively for individual writers at a substantial discount...

The PocketPuddle is a portable SignPuddle server that is not dependent on any internet connection. For those who need to work in SignPuddle and carry their work from computer to computer, without copying any files onto the hard drives of those computers, the PocketPuddle is a perfect solution.

Plug the PocketPuddle into the USB port on any Windows computer and work directly on the PocketPuddle usb flash drive. It comes with the SignPuddle server fully installed.

Are there times when you need to work directly on your hard drive and not on the PocketPuddle? The package also comes with a CD for installing PersonalPuddle software directly on your hard drive. The CD install works for Macintosh users too.

The PocketPuddle  
 Includes download links, box with CD & Manual,  
 and the PocketPuddle USB Drive.....\$100.00

**SignWriting®**  
 www.SignWriting.org

SignWriting is a way to read and write body movement. It is used to write any signed language in the world. Thousands of signers in over 40 countries are starting to write their native signed languages with SignWriting.

SignWriting is used differently depending on the need. For example, in Deaf Education, teachers use SignWriting to teach Deaf students to read and write. Sign Language researchers use SignWriting to study the grammar and syntax of signed languages, and to study how native signing Deaf people write their native language.

SignWriting is free to use, with several large web sites with thousands of free documents. Contact Valerie Sutton anytime at 858-456-0098 or Sutton@SignWriting.org.

**SignPuddle™ Software**  
 www.SignPuddle.org

This ingenious software, by Steve Slevinski, makes it possible to write signs, dictionaries and documents in SignWriting. Add signs to the SignPuddle dictionary. Create SignWriting documents with SignText. Send email in SignWriting with SignMail. Translate word-glosses to SignWriting. Print your SignWriting Literature in PDF format. Export SignWriting data to SignBank. Search signs and sign language texts by a variety of search-formats, including Search by Words, Search by Signs, Search by Symbols and Symbol-Frequency. A free and open version of SignPuddle Online is available at [www.SignBank.org/signpuddle](http://www.SignBank.org/signpuddle).

**SignPuddle  
 Servers**

**Work in a Private SignPuddle!**  
 ...with or without the internet...

## Private WebPuddle Work privately on the web!

The easiest way for groups and organizations to get started with SignPuddle.

No need to download or configure any software. You can be up and running the same day.

Your own SignPuddle web space will be just for your private SignWriting data entry, for one year. Your space will always be there for you, whenever you access the web with a private password.

Setup custom security for multiple users in your group, for viewing, adding and editing dictionaries and documents. Upload video and illustrations, storing them on the web.

Your WebPuddle can be automatically renewed every year. And your web data can be saved and transferred elsewhere.

Annual fee pays for web space for one year and full technical support. Price \$200.00

## SignPuddle WorkStation

### Turn one computer into a full SignPuddle workstation!

Enjoy the full power of a SignPuddle server on one computer. Run SignPuddle off the web, for your own private projects.

A perfect start for groups and organization that want to have the software and data on their own system. Use SignPuddle on a single computer and have ownership of your data. Depending on system configuration, it may require a web server configured with PHP and the GD Graphics library.

Includes one-year of code updates and technical support. Price: \$500.00

## SignPuddle Server

Computer networks can run a SignPuddle Server, for private SignWriting projects, for ongoing Sign Language research, and for document and dictionary creation by multiple users. Great for research labs.

With a SignPuddle Server, you can deploy SignPuddle on a private network or the Internet. A SignPuddle Server allows you to provide 2 types of access, either by a standard web browser or by connection to SignPuddle WorkStations and PocketPuddles.

The SignPuddle Server provides the same great features as the SignPuddle WorkStation and the Private WebPuddles, but it also provides an email server, dictionary synchronization, and code updates for SignPuddle WorkStations and PocketPuddles.

Includes one-year of code updates and technical support. Requires a web server configured with PHP and the GD Graphics library.

One-time fee, with one-year full technical support. Price: \$2000.00
