

1

SignBank works on

Mac OS 9, Mac OS X, Windows 98, 98se, ME, NT, 2000, XP

2

To use the full version of SignBank you will need

FileMaker Pro 5.0 or later, installed on your computer. Need to get FileMaker? Visit: [www.FileMaker.com](http://www.FileMaker.com)

If you do not own FileMaker... Use SignBank Runtime, which does not require FileMaker. See **Flyer 2** for instructions.

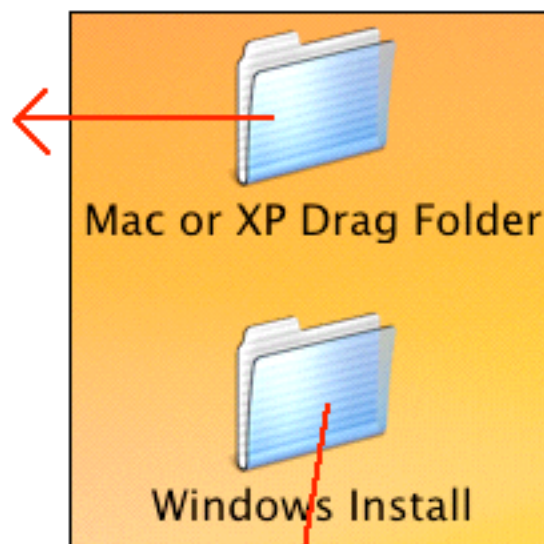

3

Install SignBank from the SignBank CD. Open the CD.

4 Macintosh & Windows XP

DRAG the first folder to your computer desktop...

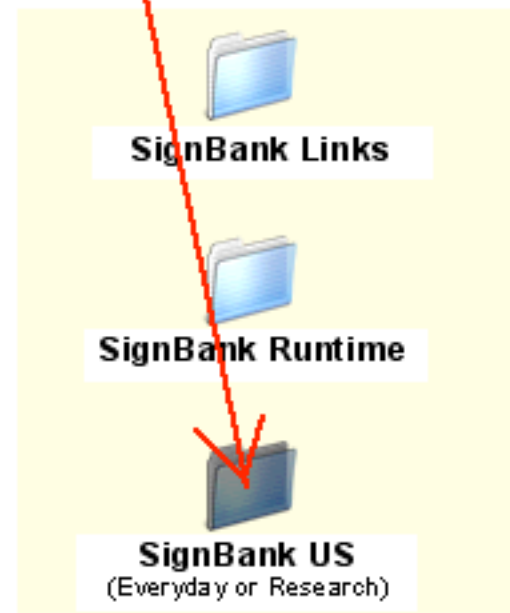

Windows 98, ME, NT and 2000: OPEN the folder "Windows Install" and start the Install program.

5

IF FileMaker Pro is installed on your computer, you can use the FULL program. Open the SignBank For Everyday Use folder, and then open the **SignBank US** folder...
