About Sutton's
Sign-Symbol-Sequence™

The **Sign-Symbol-Sequence** is used to look up signs in dictionaries. The SignWriting symbols are placed in a specific sequence. If you memorize this sequence, you can find signs quickly. To look up signs:

1. Find the Category

There are ten categories, based on the numbers 1-10 in ASL:

Category 1

Hands That Use The Index Finger

Category 2

Hands That Use The Index & Middle Fingers

Category 3

Hands That Use The Index Finger,
Middle Finger & Thumb

Category 4

Hands That Use Four Fingers

Category 5, Part 1

Hands That Use Five Fingers Spread
or Cupped (Bent at Middle Joints)

Category 5, Part 2

Hands That Use Five Fingers Together
or Angled (Bent at Knuckle Joints)

Category 6

Hands That Use The Baby Finger & Thumb
or Baby Finger Alone

Category 7

Hands That Use The Ring Finger & Thumb
or Ring Finger Alone

Category 8

Hands That Use The Middle Finger & Thumb
or Middle Finger Alone

Category 9

Hands That Use The Index Finger & Thumb

Category 10

Hands That Use The Fists & Thumb

2. Next...Find the Handshape

There are different handshapes in each category. For example:

Category 1

1.  **Index** - Index Finger Straight with Tight Fist
2.  **X Hand** - Index Finger Bent with Tight Fist
3.  **D Hand** - Index Finger Straight with Open Fist

And there is much more to learn!
