SignWriting

www.SignWriting.org • www.SignBank.org

SignWriting is a way to read and write body movement. It is an alphabet for writing the handshapes, facial expressions, movements and punctuation of any Sign Language. It is becoming the daily writing system for movement-based languages around the world.

Studies show that SignWriting helps Deaf students learn to read and write spoken languages better, as well as giving Deaf people a feeling of pride and self-worth when writing the poetry and literature of their own native signed languages.

SignWriting is free to use, with several large web sites with thousands of free documents

Non-Profit Organization

Center for Sutton Movement Writing (CSMW)
Deaf Action Committee For SignWriting (DAC)

The Center for Sutton Movement Writing is an educational 501c3 non-profit charity founded in 1974, located in La Jolla, California. The Center sponsors Sutton Movement Writing, for writing all body movement, which includes five sections: DanceWriting, MimeWriting, SportsWriting, GestureWriting and SignWriting, for writing Sign Languages.

The Center sponsors the Deaf Action Committee For SignWriting, giving Deaf adults training and part-time employment to teach Deaf children, and the SignWriting Literacy Project, donating books and software to classrooms with Deaf students.
