SignWriting®  
[www.SignWriting.org](http://www.SignWriting.org)

SignWriting is a way to read and write body movement. It is used to write any sign language in the world. Thousands of signers in over 40 countries are writing their sign languages with SignWriting.

SignWriting is used differently depending on the need. For example, in Deaf Education, teachers use SignWriting to teach Deaf students to read and write. Sign Language researchers use SignWriting to study the grammar and syntax of signed languages, and to study how native signing Deaf people write their native language.

SignWriting is free to use, with several large web sites with thousands of free documents. Contact Valerie Sutton anytime at 858-456-0098 or [Sutton@SignWriting.org](mailto:Sutton@SignWriting.org).
