

SignWriting e-books

Richard Gleaves

Abstract

Updated editions of the classic SignWriting textbooks are available on the SignWriting website as free e-books. In particular, the print book "SignWriting Hand Symbols Manual for the International SignWriting Alphabet 2010" is now available as an e-book titled "SignWriting Hand Symbols". This e-book is fully hyperlinked, offering fast two-click access to every hand symbol definition. As shown in the video presentation, this e-book can also be used as a digital flipbook for learning by comparison the related hand symbols. The SignWriting e-books are published in the Internet Archive, a non-profit digital library. The Archive is an outstanding resource for digitally publishing SignWriting literature at no cost.
