

# SignWriting App

Presenter: Jake Chasan

## Goals/Successes

- One of the goals with the "SignWriting" app was to make an interactive tool for educators, parents and students to use to teach SignWriting
- We did this by:
  - 1. Determining a list of useful terms
  - 2. Locating graphics that represent the terms
  - 3. Designing flashcards to use in the app
  - 4. Organizing the data into JavaScript Object Notation.
  - 5. Programming the App in Objective-C
  - 6. Applying for approval from Apple
  - 7. Presenting the app to the community

Gainsborough Street, Fenway Kenmore", "landmarkGPSNorth": "42.3413", "landmarkGPSWest": "71.0

# Challenges

- Creating an app in a language
   which I was not familiar
- Loading the flashcards in a time efficient manner
- Keeping the size of the images small enough to allow the app to be self contained on the individuals device so that it did not require a server to maintain the app
- Finding high quality images without copywriter to portray the words

#### Download from App Store

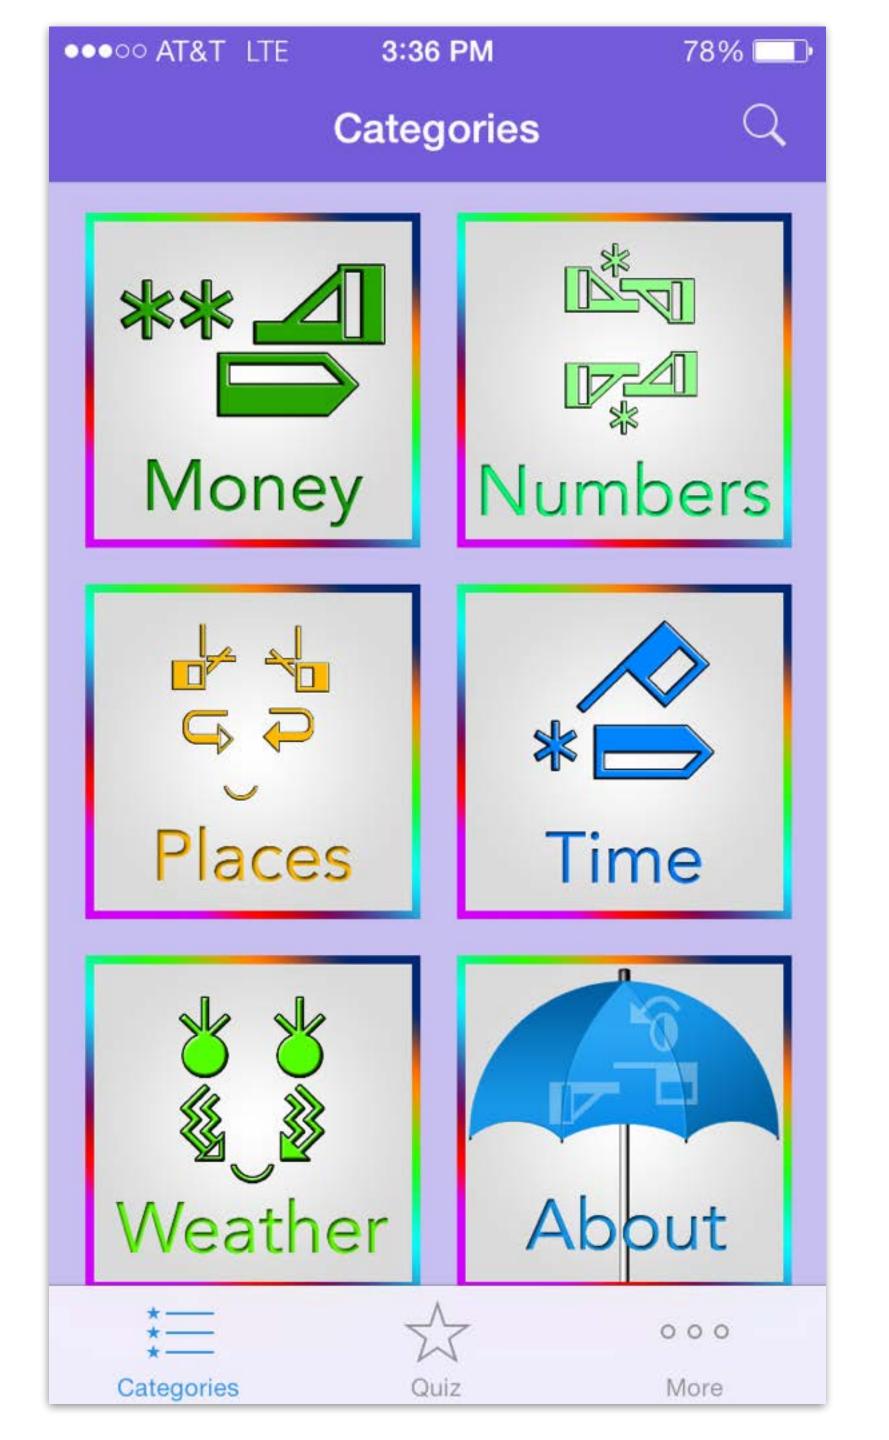

## Search Screen

- A user can search the entire SignWriting database
- The user can control the type of search they would like to perform
  - any part of the word
  - start of word
  - exact word

## Categories

- Alphabet
- Animals
- Bedtime
- · Clothes
- Color
- Family
- Feelings
- Food
- Money
- Numbers
- Places
- Time
- Weather

## Alphabet

- A through Z
- All capital letters

# Animals

- Bird
- Cat
- Cow
- Dog
- Fish
- Horse
- Lion
- Monkey
- Pig
- Rabbit
- Snake

## Bedtime

- Bathroom
- Bed
- Bedroom
- Brush teeth
- Sleep
- Wash

## Clothes

- Coat
- Glasses
- Hat
- Pajamas
- Pants
- Sandals
- Shirt
- Shoes
- Shorts
- Socks
- Sweater

# Color

- Black
- Blue
- Brown
- Green
- Orange
- Purple
- Red
- White
- Yellow

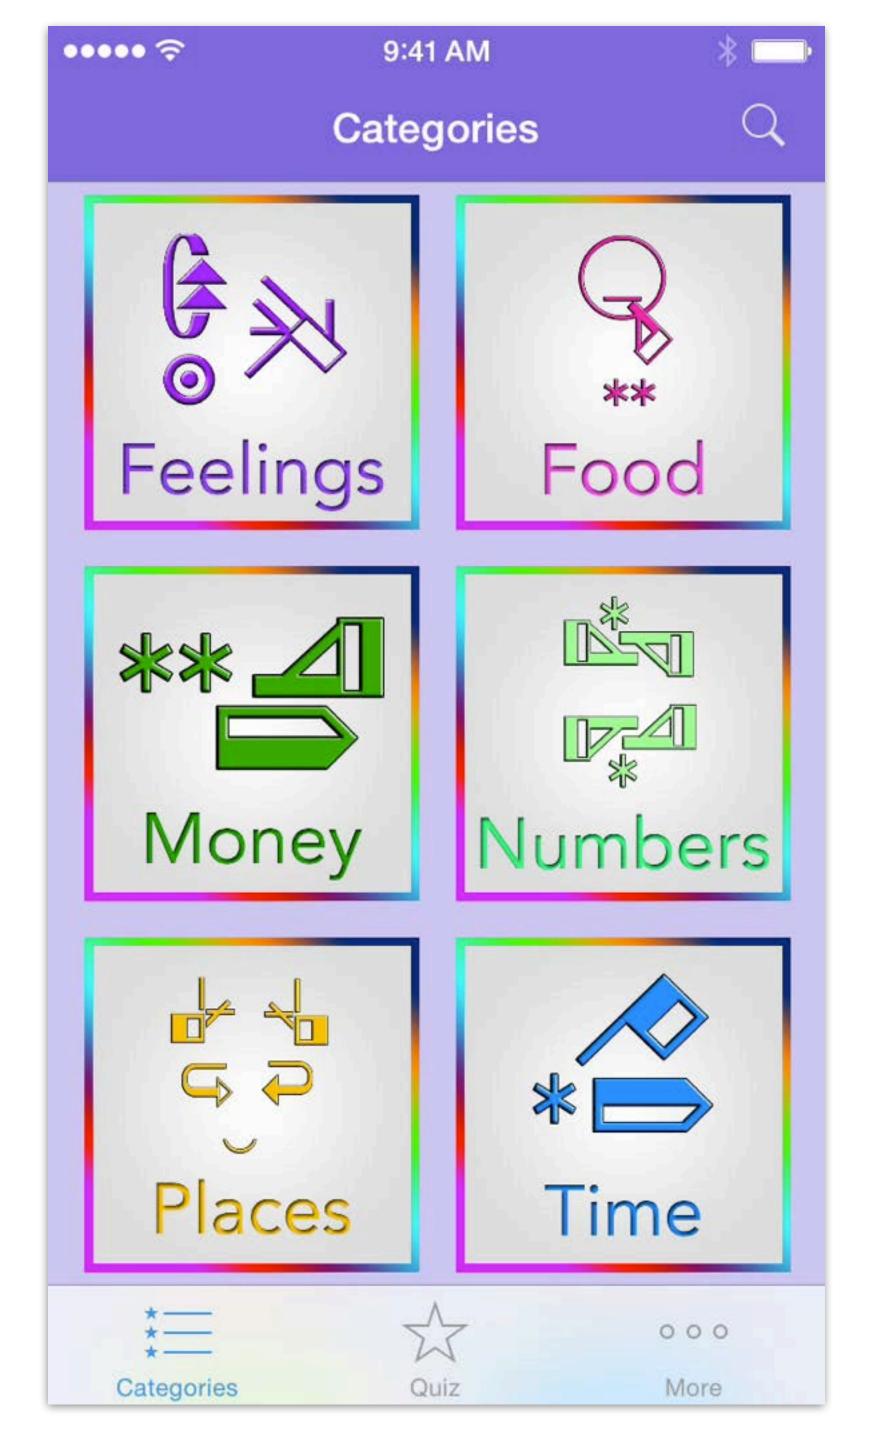

# Family

- Baby
- Boy
- Brother
- Dad
- Girl
- Grandfather
- Grandmother
- Married
- Mom
- Sister

# Feelings

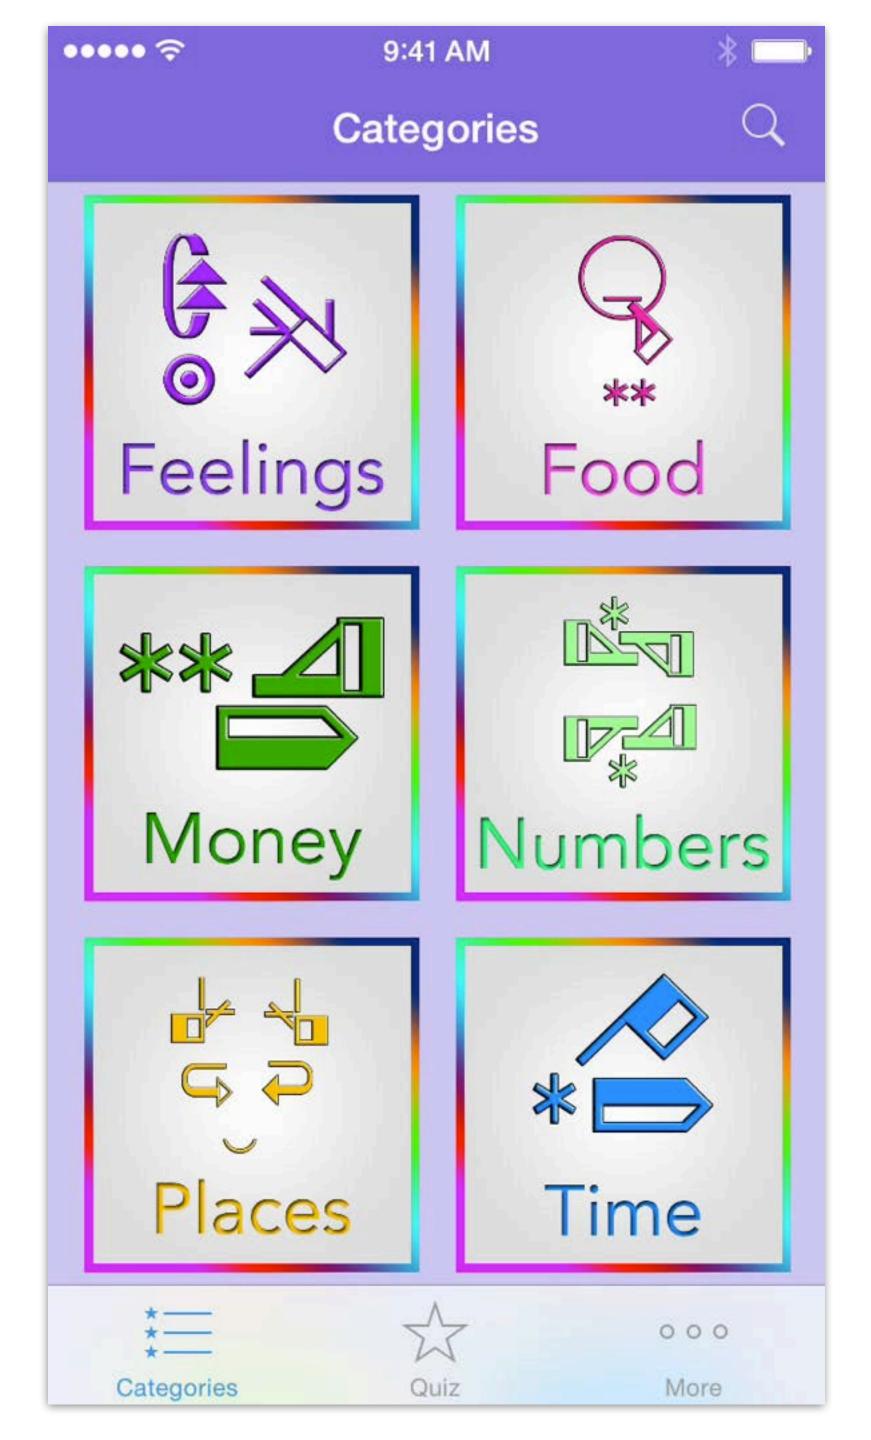

- Angry
- Cry
- Happy
- Hurt
- Love
- Sad
- Sorry

# Food

- Day
- Week
- Month
- Year
- Watch
- Clock
- Night

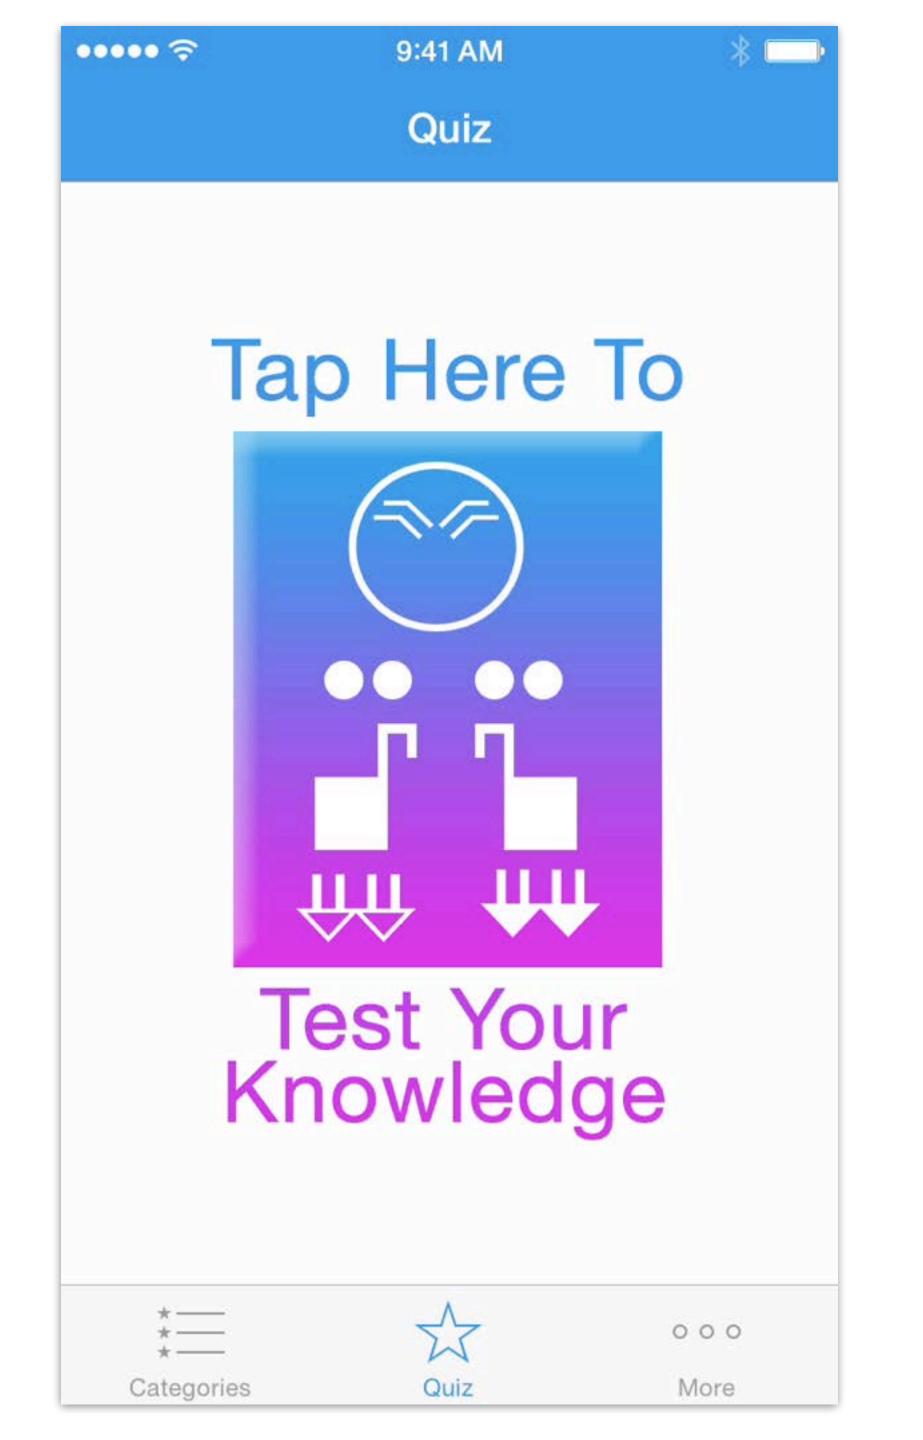

## Weather

- Cloudy
- Cold
- Hot
- Rain
- Snow
- Sun

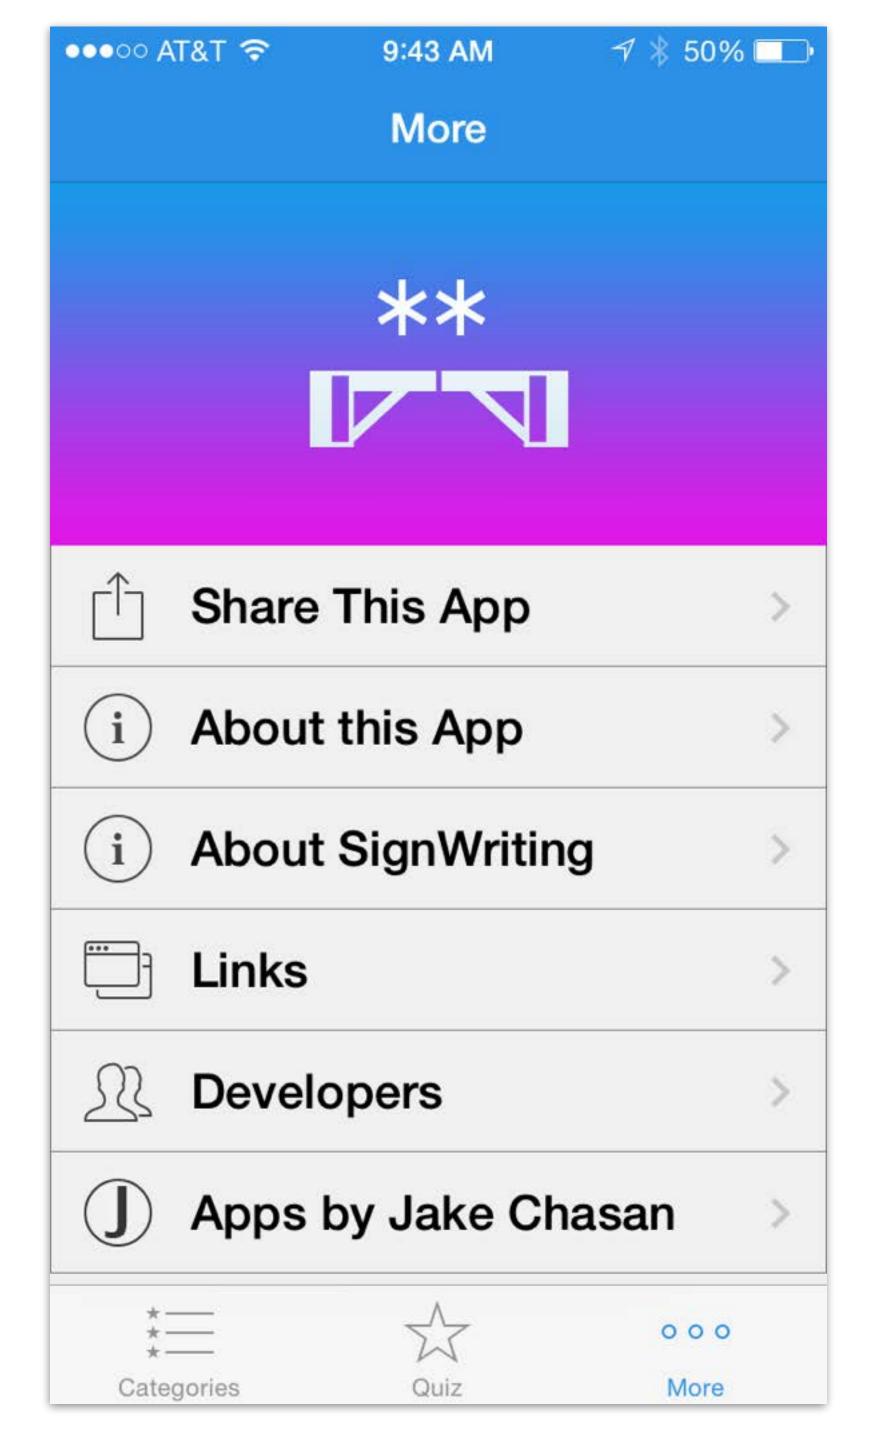

# Quiz

- The app contains a quiz to test the users knowledge of the Sign Writing images that are contained in the app
- The quiz displays an image of the Sign Writing word.
- It provides the user with four English words to choose from
- If the correct word is chosen the word appears green
- If the incorrect word is chosen it displays in red

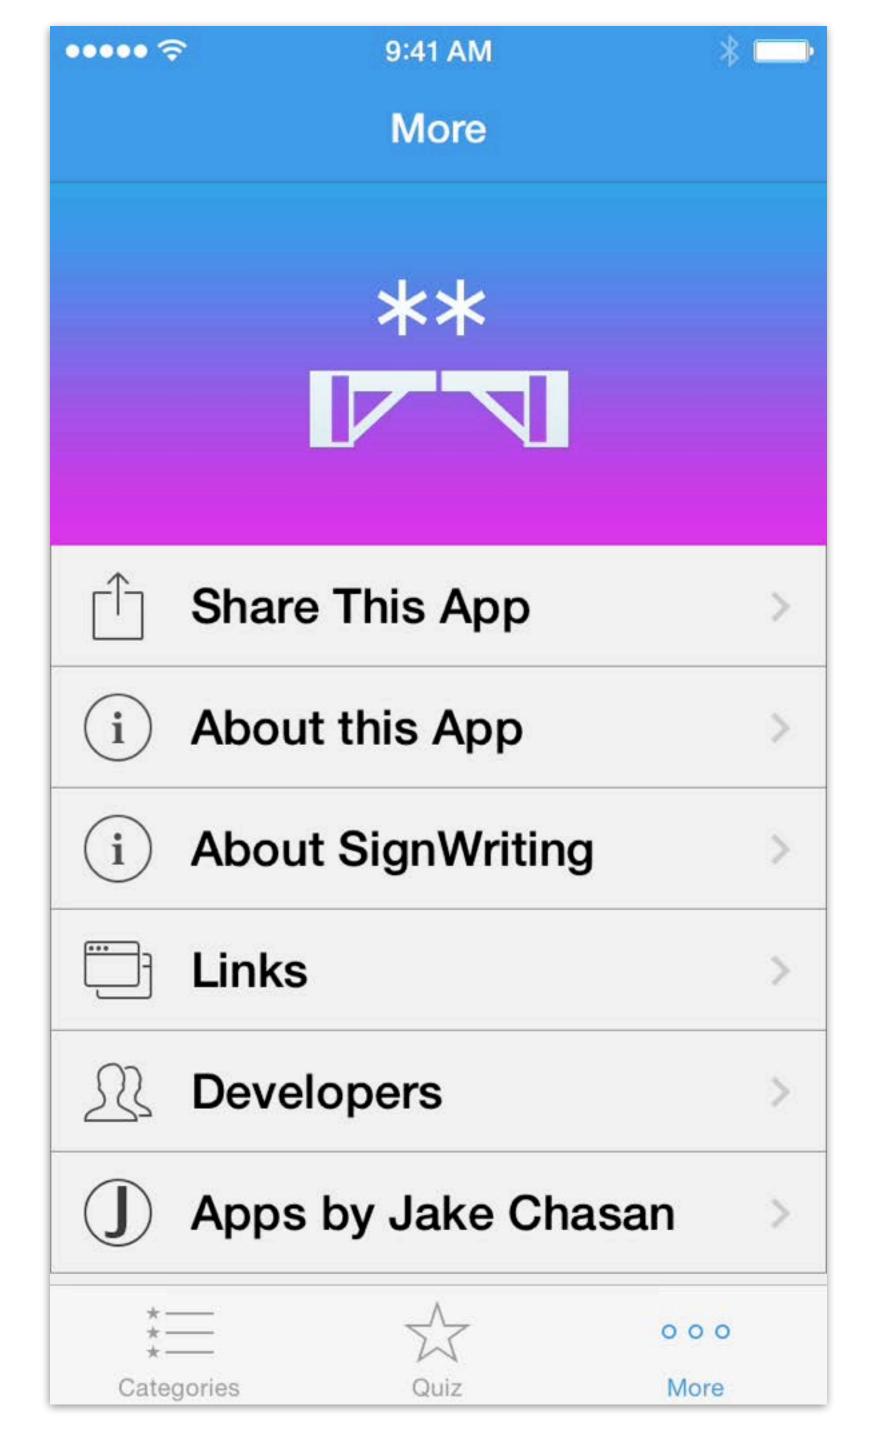

## More Screen

- This screen can be accessed from the bottom bar menu and includes:
  - Sharing
  - Information about the app
  - Links to Sign Writing Communities
  - Information about the developers
  - A link to other apps I have produced

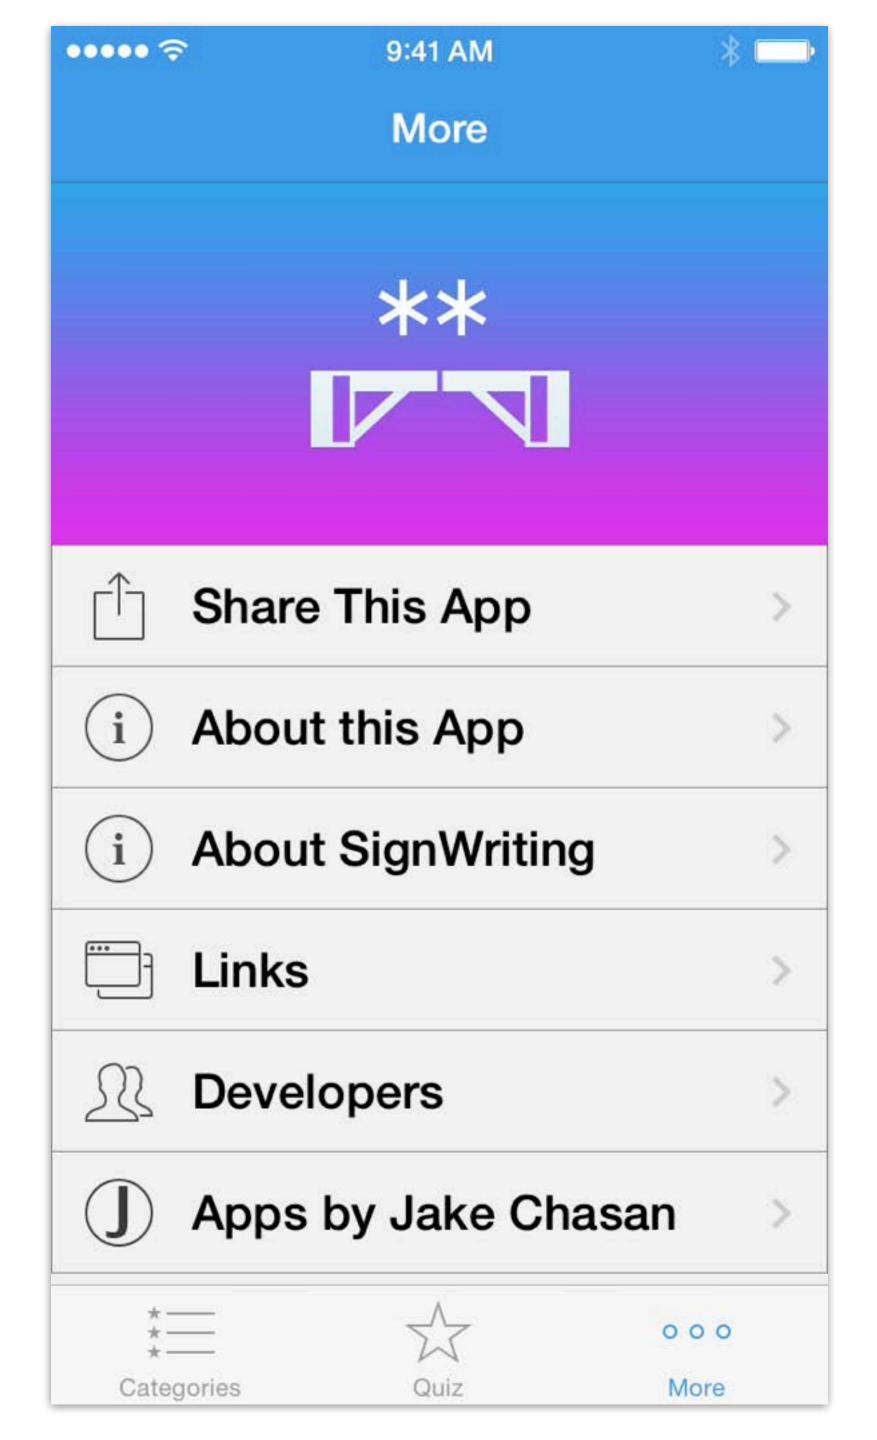

# Share this App

- Allows this app to be shared with other users through:
  - Text
  - Email
- It provides the user with a preset message which includes a link to the app in the App Store

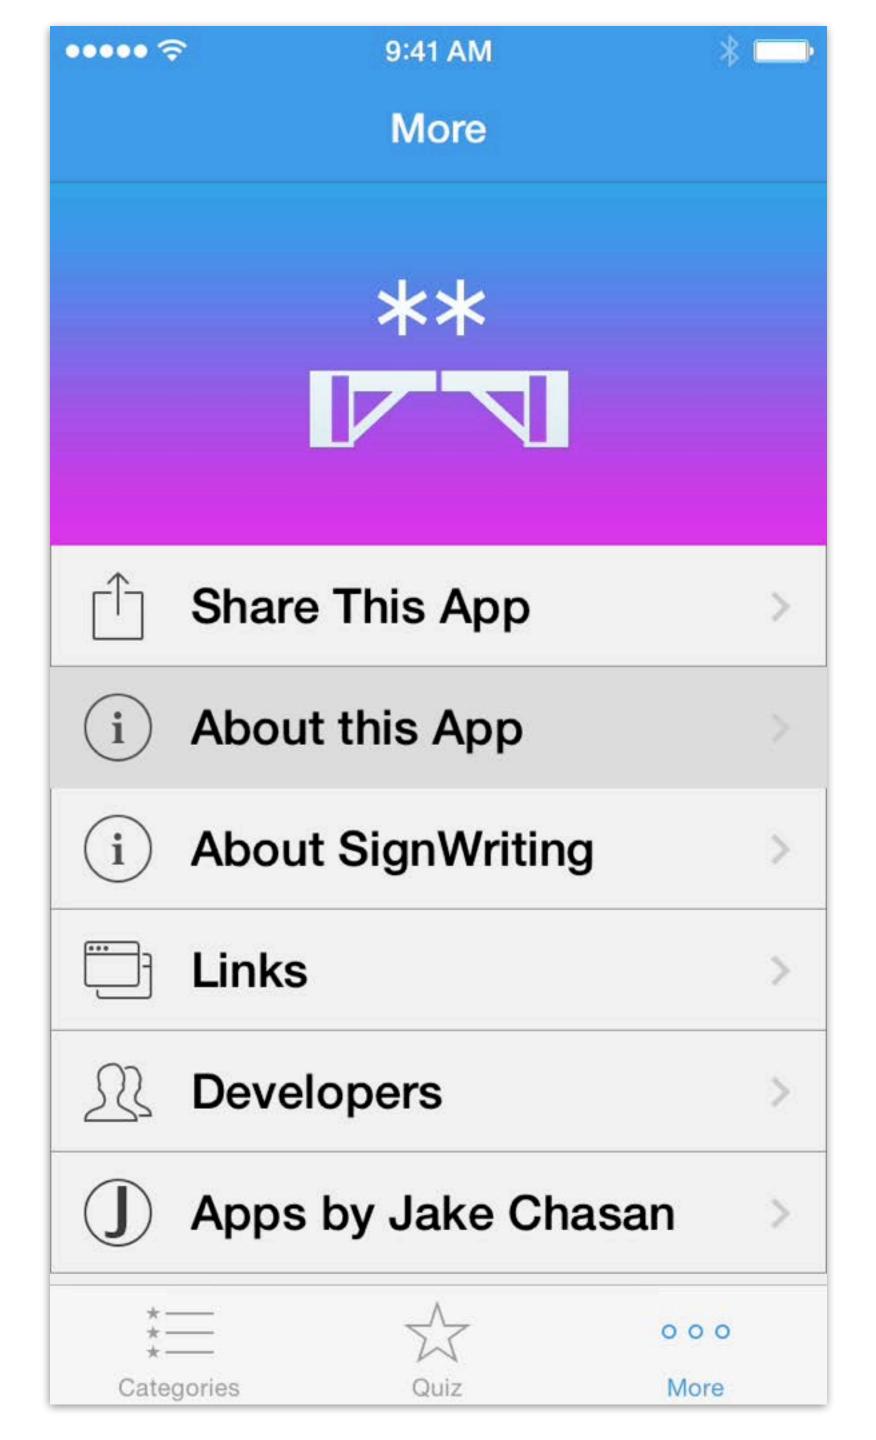

# About this App

- Provides information for the target audience that would potentially use this app
- A link to SignPuddle
- Credits to the developers of Sign Writing

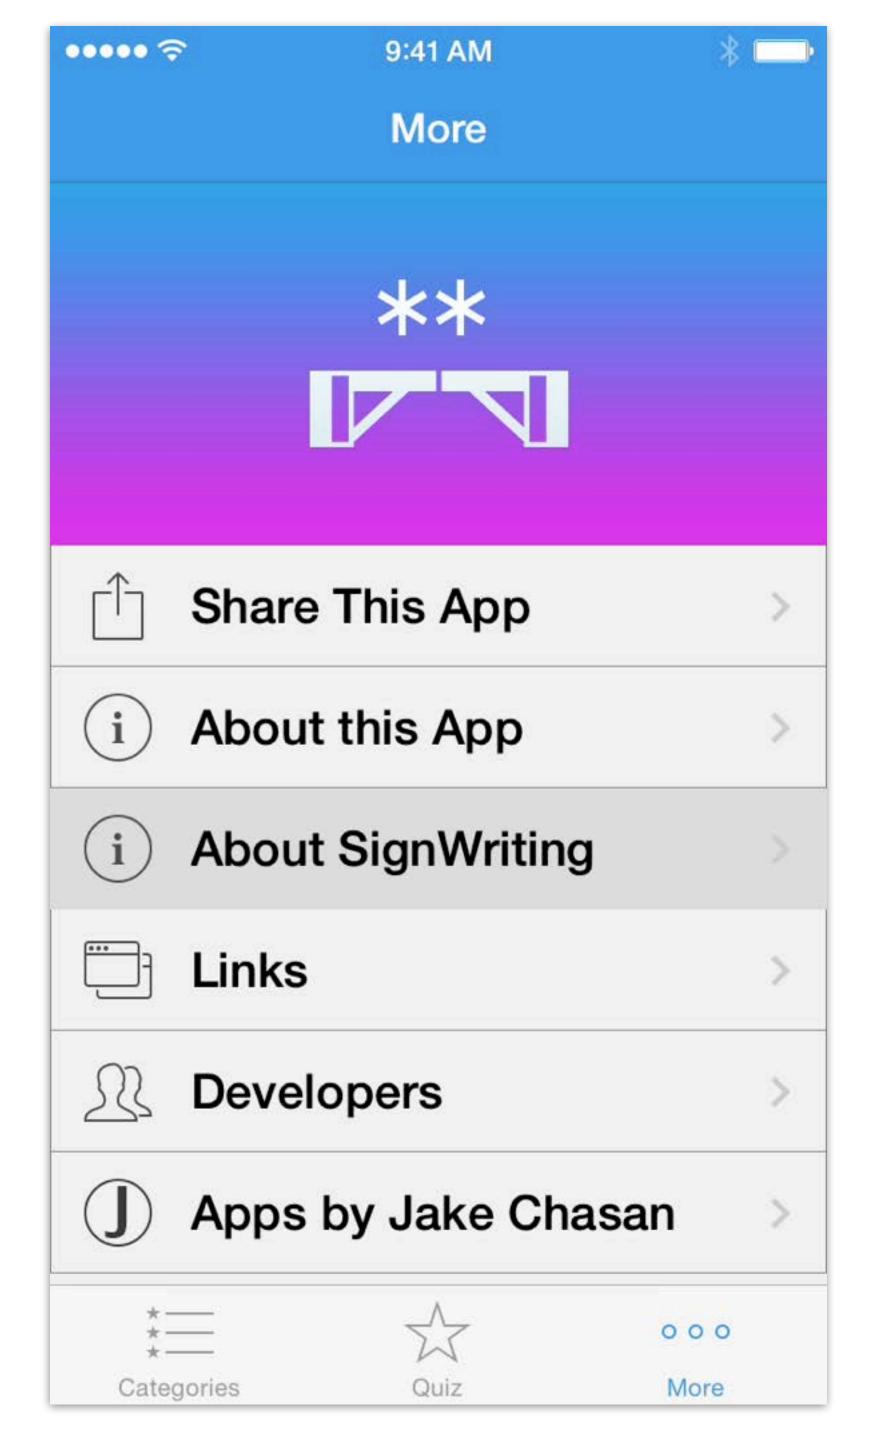

# About SignWriting

- This page explains what Sign Writing is and how it can be compared to the alphabet in the English Language
- This app also explains how Sign Writing is used in the international community

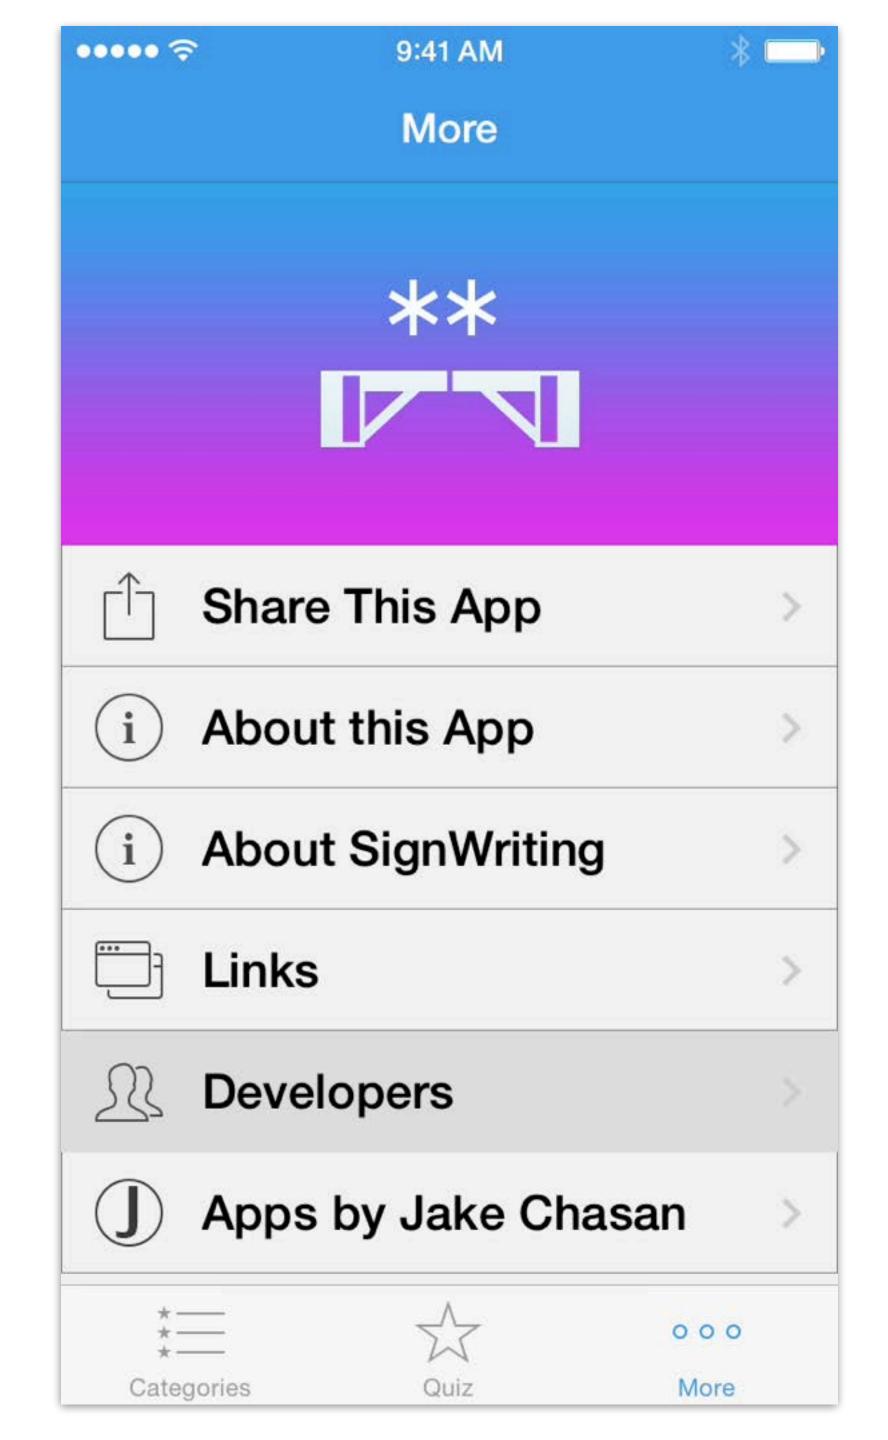

# Links

- <u>signwriting.org</u>
- SignWriting List Forum
- <u>signpuddle.com</u>
- <u>signbank.org</u>
- SignBanks SignPuddle

## Developers

- Jake Chasan (App Developer)
- Elena Eroshkin (App Marketer)
- Adam Frost (Language Consultant)
- Valerie Sutton (SignWriting Creator)
- Stephen Slevinski (Software Engineer for SignWriting Project)

## Apps by Jake Chasan

- Takes the user to a page which displays all the apps that have been created by JApp
- The user can click on a JApp icon, and the user will be redirected to the App Store

## Future of this App

 To keep this app updated with the iOS changes that occur in order to stay current in the App Store

# Conclusion

In conclusion, this project helps teachers, occupational therapists, parents and students become familiar with SignWriting through a colorful interactive flashcard program.

This app was compressed so that it can be downloaded to the users device without taking up too much storage space on the device. It does not require a server for use. The app weighs-in at 26.8MB, well below Apple's cellular download limit.

Thank you to all the people who have made SignWriting feasible and the development of this app a possibility.
